

## **QSR International – AARE workshop**

### **Software workshop exclusive to AARE delegates: NVivo 8 Fundamentals**

**Sunday 30 November 9.30am – 4.30pm**

Undertaking a project or conducting research that involves analysing field notes or other text based information in Word or PDF format? Working with interview recordings, video footage or digital photos? Learn about how NVivo research software can assist in your next education project.

QSR International is offering AARE 2008 delegates a one day training workshop to learn how NVivo 8 software can assist you in your next education project – whatever your materials.

This hands-on workshop is offered at a discount of over 30% to AARE delegates, and it's a basic introduction to research software, NVivo 8. At the end of the day, you should have enough knowledge to get up and running with your own project.

You'll learn how to create a project, and represent and work with different materials. You'll also be given a demonstration of some of the tools to assist in the analysis of your data. Time is allocated during the afternoon session to practice on your own data.

Workshop costs include lunch and morning and afternoon refreshments. Desktop computers are provided and you'll receive your own comprehensive workbook.

**AARE delegate price: \$253.00 including \$23.00 GST (over 30% discount off normal workshop fee). Places are very limited.**

To register for this workshop click on the 'How to register' link at the bottom of the Conference homepage.

**Note: Registrants for this course must have an Internet Connection. If you do not already have an Internet Connection for QUT campus, please purchase one via the Secure Payment Conference Registration page. Cost is \$7.70**
